

AGRICULTURE, BAS

In order to properly serve graduates from community colleges and technical schools, the marketing discipline offers a Bachelor of Applied Science (B.A.S.) degree. The B.A.S. degree program in Agriculture will provide opportunities for individuals who have completed Associate of Applied Science (A.A.S.) or Associate of Science (A.S.) degree programs to achieve a bachelor's degree with somewhat reduced course requirements when compared to a student who has not achieved any of the two-year degrees or diplomas.
