MBA, Leadership Concentration

Notes: The leadership concentration within the MBA degree provides students with knowledge of the key theories and concepts in this discipline, as well as hands-on applications and skills. This concentration prepares students to become leaders and facilitate teams within an organizational setting. Students will gain skills in understanding, predicting, and managing human behavior in organizations. The use of case studies and simulations, in particular, in the leadership concentration courses provides students with experience working in small groups and teams to accomplish a common goal.
