

PRE-PROFESSIONAL PROGRAMS

Students wishing to specialize in certain professional areas in which Southwest Minnesota State University does not offer professional degree programs may take sufficient pre-professional work to prepare for admission into a professional program.

Requirements vary significantly from institution to institution. Therefore, if you are interested in a pre-professional program, you should seek out an advisor in that program. That advisor can then discuss with you the specific details about courses and other requirements for the program and school(s) which interest you.

Southwest Minnesota State University offers pre-professional programs in the following areas (followed by the recommended program advisor):
